

Toyota Express Service

Designed specifically to fit in with the way you live your life, Express Service offers you an excellent combination of convenience and value for money.

In and out in just 60 minutes

From the moment you're greeted by the team member who will be personally looking after you, to the moment your car is handed back - fully serviced and cleaned, your maximum wait will be just 60 minutes.

We are able to offer this level of service by putting two skilled technicians to work on your car at once. To achieve that, a whole new servicing system has been devised that allows two people to work on your car without getting in each other's way or duplicating tasks. We even created special new tools to help speed up their work.

Perfect for busy people or remote locations

Express Service is ideal if you need your car back in a hurry, or if you live a long way from your nearest Toyota Centre.

No extra charge

In keeping with Toyota's aim of always trying to give you more than you expected, this prestige service is available at no extra charge. You pay exactly what you would for a traditional service and not a penny more.
